Conference Themes

The Conference theme "Emerging Technologies & Innovations" for an International Conference typically indicates a focus on the latest advancements and cutting-edge developments in technology and innovation. This Conference unites to explore advancements across critical fields including Artificial Intelligence, Renewable Energy, Biotechnology, Robotics, Material Science and Quantum Computing. By fostering interdisciplinary collaboration, we aim to drive scientific discoveries that address global challenges and catalyze transformative change across diverse sectors. The Conference aims to highlight advancements and innovative practices across these fields.

Conference Subthemes

Track I - Emerging Trends in Computer Science and Artificial Intelligence

- Applications of Artificial Intelligence
- Big Data: Transforming the Landscape of Computer Engineering
- Software Development: Latest Tools and Techniques
- Cloud Computing: Developments and Future Prospects
- Cyber Security
- Computational methods

Track II - Emerging Trends in Electrical Engineering

- Future of Robotics in Electrical Engineering
- Advancements in Electric Vehicles and Battery Technology
- Smart Grid Technology
- Renewable Energy: Solar PV, Wind etc.

Track III - Advancements in Material Science and Nanotechnology

- Surface, Interface & Thin Films
- Insulators, Semiconductor & Dielectric Material
- Thermodynamic, Thermal & Mechanical properties
- Advancements in Chemistry
- Recent trend in Applied Mathematics
- The Role of Quantum Computing in Modern Technology

Track IV - Emerging Trends in Mechanical Engineering

- Advanced Materials and Manufacturing
- Robotics and Automation
- Mechanical Systems and Design
- Thermal Engineering
- Industrial Engineering and Operations Management.

Track V - Technological Advances in Civil Engineering

- Sustainability in Civil Engineering: Current Practices
- Role of Civil Engineering in Urban Development
- Green Building: A Civil Engineering Perspective
- Sustainable Energy and Environment

About the Institute

Pacific Institute of Technology located within PAHER University in Rajasthan is a well-established reputed Institute that offers a diverse range of Engineering & Computer Science programs like B.Tech, BCA, MCA, M.Tech and Ph.D. in several disciplines and is known for its commitment to provide affordable education with a focus on academic quality and overall development of students.

About PAHER University

Pacific Academy of Higher Education & Research Society (PAHER), Udaipur founded in 1997 has become one of Rajasthan's fastest-growing educational societies. It offers multidisciplinary programs in fields like Science, Engineering, Dental, Pharmacy, Hospitality, Management and Education emphasizing a blend of theory, practical and technology with humanities. With 25 institutions, 18,000+ students and a dedicated Faculty and Staff, PAHER has made a significant contribution to professional higher education in the region.
